Advances in Corrosion Protection by Organic Coatings 2024

The “ACPOC” conference series has run about every 5 years since 1989 and are generally held in Cambridge, UK. However, in September 2024, we are proud to present the next ACPOC at Tokyo University of Science, Japan. The event will cover all aspects of corrosion protection by organic coatings, including, but not limited to: binder, pigments, formulation, mechanisms, surface treatments, inhibition, testing, etc. *We look forward to your active participation.*
